# MESSAGE FROM MANAGEMENT

---

We believe a business is not successful if it is only committed to profit. It has to be an activity which creates prosperity and well being for all those who are connected with it directly or indirectly. Profit is only a by-product reflecting how well we are carrying out the business activity.

---

## OUR MISSION

We are working to offer expertise and products which realize safe, reliable and competitive-priced systems by using materials and technologies which grant environmental integrity.

We seek the highest standard of performance by means of continuous investment in Research and Development.

Innovation is presently the turn-key which drives ALKHORA to help its customers to meet their needs of fire protection for tomorrow.

## OUR VISION

***“Enthusiastic project engineers create additional success in teambuilding the project by adding innovative knowledge to the project management”***

We are acting at a global International level with the clear aim to become a leading company in our field, pursuing continuous improvement to satisfy the highest expectations of our customers in terms of Quality and Reliability.

Our customer can rely on our tailor-made solutions and on our growing dynamism, that allows us to quickly adapt methods and rhythms to new market trends.

**24+  
YEARS OF  
EXPERIENCE**

ALKHORA is built upon the strengths of several individual, complimentary areas of expertise which create a cohesive team enabling us to successfully accomplish tasks as a single, interconnected and seamless organization.

# WHY US

ALKHORA draws from the background of real-world extensive experience in Iraq. With our intimate knowledge of Iraqi culture and laws, we can easily navigate through the rules and regulations of this unique work environment.

## Our Commitment to safety, Health and Environment

ALKHORA foster a culture that is founded on putting safety first. Our continuous development of safety controls ensure that work is performed using safe work practices and adherence to environmental control. From Basic workplace safety measures to Handling Hazardous, ALKHORA continuing training their staff increase their skills to safely execute the work complying with OSHA standards and our client's requirements.

Attention to Details

A Plan for Success

Creativity

Experts Only

Award-Winning

“

**Our financial stability allows us to operate debt free supporting numerous contracts over all regions of Iraq.**

# OUR SERVICES

ALKHORA is well-known as a dependable and timely provider for a commercial & Government entities operating in the fast paced and ever-changing environment of Iraq.

## FIRE & GAS DETECTION SYSTEMS

ALKHORA provides two types of alarm panels:

- conventional type, in accordance with European EN54 rules
- intelligent micro-processor based type, mod. FB6100 and INFINITY, in conformity with the following standards: EN54-2, EN54-4, IEC61508/11, CEI-79-2, NFPA72.

ALKHORA provides full customizable integrated processes that include a Master Fire Control Panel (MFCP), Local Fire Control Panel (LFCP), a suitable type of fire & gas detector and relevant alarm devices on field.

---

## WATER SYSTEMS

ALKHORA provides a wide range of water systems providing full hydraulic analysis and calculation in order to maximize the right design whilst making the most economical use of available water consumption. Among the systems there are:

- water mist (TUV certified) & sprinkler
- water deluge systems

**SANCO**  
Gas detection and Fire Suppression

## FOAM SYSTEMS

We provide a very wide range of foam systems, able to produce various expansion foam. Foam can be produced by portable mobile units, fixed installation and vehicles as well.

## GAS SYSTEMS

ALKHORA provides any type of gas system by using extinguishing agent listed in NFPA

2001-2008. SANCO is most probably the largest manufacturer of CO<sub>2</sub> high pressure systems in Europe; about 700-800 systems/year are manufactured in its factory by using over 20.000 cylinders/year. Regarding low pressure systems, SANCO range includes capacities from 3.000 to 30.000 Kg of CO<sub>2</sub> systems sizes.

## DRY CHEMICAL and TWIN AGENT SYSTEMS

ALKHORA offers a complete range of dry chemical systems (with capacity from 50 to 5.000 kg) with single or double reserve tank, complete with hose reels and monitor.

All the produced dry chemical units can be filled with any type of powder.

Also, we are able to offer "twin agent" systems (dry chemical-foam) for fixed installation, wheeled, trailer or vehicle mounted with capacity from 50/50 to 1.000/1.000 kg each tank. The two agents can flow out through both a double hose reel or double monitor, which is able to independently or simultaneously deliver combined Aqueous Film Forming Foam (AFFF) or Alcohol Resistant Foam and a compatible dry chemical.

## FIRE SUPPRESSION EQUIPMENT

The company manufacturing range also includes:

- mobile foam units
- portable and wheeled extinguishers
- foam-making equipment (foam generators, foam proportioning units, in-line foam educators, etc.)
- motor pumps and wheeled pumps
- pillar and underground hydrants
- fire cabinets and hydrants valves
- post indicators
- hose reels and fire hoses
- branchpipes (water – foam)
- fog and spray nozzles
- monitors (manual controlled, self-oscillating, remote controlled, portable, elevated, high flow-long throw, etc.)
